- Weight: 130g (approx.)

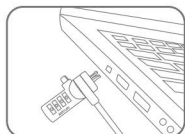

### FEATURES

- Easily resettable
- Steel reinforced cable
- Choose from 10K possible combinations
- Tamper-resistant lockhead
- Also suitable for securing travel bags

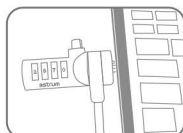

Follow the below steps to use  
the digital lock:

1. Push the number-adjusting button on the left of the lock inwards to change your password, which is initially 0-0-0-0

2. Press the button on top of the lock and insert the lock into your computer. Then, adjust the lock's numbers to make sure your password is not visible on the lock

3. Use the password you set in step 1 to take the lock out of the computer after use.
